RH850/F1L-176pin, External Components

 Required component (*)
  Recommended component (*)
  Typical component (*)

(*) Annotation

■ Required component

Component that *must be implemented* as part of the device specification.

■ Recommended component

Component that *is not required* by the device specification but *is provided* in order to secure the device operating conditions.

The component value depends on the implementation details and must be evaluated with best engineering practice.

■ Typical component

Component that *is not required* by the device specification but *typically is provided* in order to fulfill a use case.

The component value depends on the implementation details and must be evaluated with best engineering practice.
